

## JAM Pack Ruby

The JAM Pack Ruby package creates an instant lightshow, remotely controllable right out of the box. Included in the pack are an RGB moonflower projecting brightly colored beams, a mini LED strobe with a manually adjustable strobe rate and an IRC-6 remote (for the moonflower), plus two external power supplies. The IRC-6 can be used to trigger auto and sound modes. There is no easier way to get the party started!

# En résumé

- Perfect combination of multiple effect lights in one convenient package
- Pack includes a bright moonflower effect light and a punchy Mini Strobe LED
- Ready to use right out of the box; just add music
- RGB moonflower effect light creates bright colorful beams
- Compact LED strobe light with manually adjustable strobe rate
